FEATURES

X-AM PMP® is more than an exam simulator. It is a comprehensive practice tool designed to help PMP® certification candidates build confidence, strengthen their knowledge and prepare effectively for the PMP® examination.

Through realistic exam-style questions, candidates can test their knowledge under exam-like conditions, identify areas for improvement and learn from every attempt.

KEY FEATURES

- **Practice with exam-style questions** – Prepare for the PMP® examination by answering realistic questions designed to reflect the format and level of complexity of the exam.
- **Learn from every answer** – Review your responses and access detailed feedback to better understand mistakes and reinforce key concepts.
- **Track your progress** – Monitor your performance over time and identify strengths, knowledge gaps and areas that require additional attention.
- **Prepare efficiently** – Focus your study efforts where they are needed most and measure your progress throughout your preparation journey.
- **Train in realistic conditions** – Use the simulator to become familiar with answering questions in an exam-oriented environment and build confidence before test day.

With a question pool of approximately **1150 questions**, X-AM PMP® provides a flexible and effective way to complement your PMP® preparation and put your knowledge into practice.

The questions are aligned with the **current PMP® Examination Content Outline (ECO)** published by PMI®. The current ECO also reflects the evolving role of project professionals, with greater emphasis on areas such as value delivery, business impact and real-world project dynamics.

LEARNING EXPERIENCE

With its intuitive, user-friendly interface, **X-AM PMP®** can be accessed across different devices, giving learners the flexibility to practice whenever and wherever it suits them.

The tool offers several learning modes, allowing candidates to tailor their preparation to their individual needs:

- Practice by PMP® Exam Domain – Focus on the key domains of the PMP® Examination Content Outline: People, Process and Business Environment.
- Practice by Focus Area – Deepen your knowledge within current PMBOK® Guide
- Full Exam Simulation – Put your knowledge to the test in a complete exam-style simulation of 180 questions to be completed within 240 minutes, helping you practice under conditions similar to the actual examination.

X-AM PMP® is available in five languages: English, German, French, Spanish and Italian.

TARGET AUDIENCE & LEARNING OBJECTIVES

WHO IS IT FOR?

X-AM PMP® is designed for professionals preparing to take the Project Management Professional (PMP)® certification examination.

WHAT WILL YOU ACHIEVE?

By using X-AM PMP®, learners can:

- Strengthen and apply their PMP® knowledge
- Practice with realistic, exam-style questions
- Experience close-to-real exam conditions
- Learn from mistakes and review their answers
- Assess their current level of preparation
- Identify strengths and areas for improvement
- Track their progress over time
- Build confidence and prepare effectively for the PMP® examination

ACCESS, COMPLETION & PDUS

Once activated, access to **X-AM PMP®** is valid for **12 months**. The average learning time is approximately **20 hours**, depending on the learner's individual experience and preparation needs.

To complete the course, learners must:

- Complete at least one full exam simulation with a score of **80% or higher**
- Answer at least **600 questions** from the available question pool

STS is a **PMI® Authorized Training Partner (ATP No. 2073)**. Upon successful completion of the course, learners may request a **course completion certificate** to support their PDU claim with PMI®.

Please note that the acceptance and allocation of PDUs remain subject to PMI® requirements and policies.
